CONTENTS OF VOLUME XXIV

BAKES, F. P. **Effect of Response to Auditory Stimulation on the Latent Time of Blocking of the Berger Rhythm** 406
BERRIEN, F. K. **Finger Oscillations as Indices of Emotion: I. Preliminary Validation** 485
BERRIEN, F. K. **A Note on Laboratory Studies of Deception** 542
BERRIEN, F. K. **Finger Oscillations as Indices of Emotion: II. Further Validation and Use in Detecting Deception** 609
BROGDEN, W. J. **The Effect of Frequency of Reinforcement upon the Level of Conditioning** 419
BUGG, E. G. **An Analysis of Conditions Influencing Consonance Discrimination** 54
CAMPBELL, A. A. **Discussion: A Reply to Dr. Razran** 227
CHARD, R. D. **Visual Acuity in the Pigeon** 588
COOK, T. W. **Repetitive Pattern in Whole and Part Learning the Spider Maze** . 530
COURTS, F. A. **The Knee-Jerk as a Measure of Muscular Tension** 520
DANIEL, R. S. **The Distribution of Muscular Action Potentials During Maze Learning** 621
DAVIS, R. C. **Patterns of Muscular Activity During 'Mental Work' and Their Constancy** 451
DOCKERAY, F. C. AND VALENTINE, W. L. **I. New Isolation Cabinet for Infant Research** 211
GIBSON, E. J. **Sensory Generalizations with Voluntary Reactions** 237
GRAHAM, C. H., BROWN, R. H. AND MOTE, F. A. Jr. **The Relation of Size of Stimulus and Intensity in the Human Eye: I. Intensity Thresholds for White Light** 555
GRAHAM, C. H. AND BARTLETT, N. R. **The Relation of Size of Stimulus and Intensity in the Human Eye: II. Intensity Thresholds for Red and Violet Light** 574
GUNDLACH, R. H. AND KENWAY, G. **A Method for the Determination of Olfactory Thresholds in Humans** 192
HERTEL, K. L. AND DUNFORD, R. E. **A New Chronoscope** 547
HOFFMAN, A. C., WELMAN, B. AND CARMICHAEL, L. **A Quantitative Comparison of the Electrical and Photographic Techniques of Eye-Movement Recording** 40
HOLLINGWORTH, H. L. **Perceptual Fluctuation as a Fatigue Index** 511
HOLWAY, A. H. AND ZIGLER, M. J. **On the Discrimination of Minimal Differences in Weight: V. Kinesthetic Adaptation for Exposure-Time as Variant** 268
HOVLAND, C. I. **Experimental Studies in Rote-Learning Theory: IV. Comparison of Reminiscence in Serial and Paired-Associate Learning** 466
JACKSON, T. A. AND DOMINGUEZ, K. **Studies in the Transposition of Learning by Children: II. Relative vs. Absolute Choice with Multi-Dimensional Stimuli** 630
JENKINS, W. L. **Studies in Thermal Sensitivity: 9. The Reliability of Seriatim Cold-Mapping with Untrained Subjects** 278
JENKINS, W. L. **Studies in Thermal Sensitivity: 10. The Reliability of Seriatim Warm-Mapping with Untrained Subjects** 439
JOHNSON L. M. **The Relative Effect of a Time Interval upon Learning and Retention** 169

JONES, L. F. **A Study of Human Salivary Conditioning** 305
KELLOGG, W. L., DAVIS, R. C. AND SCOTT, V. B. **Refinements in Technique for the Conditioning of Motor Reflexes in Dogs** 318
KELLOGG, W. N. AND WOLF, I. S. **The Nature of the Response Retained After Several Varieties of Conditioning in the Same Subjects** 366
KNOTT, J. R. **Some Effects of 'Mental Set' on the Electrophysiological Processes In the Human Cerebral Cortex** 384
KNOTT, J. R., HENRY, C. E. AND HADLEY, J. M. **Brain Potentials During Sleep: A Comparative Study of the Dominant and Non-Dominant Alpha Groups** ... 157
LEPLEY, W. M. **The Social Facilitation of Locomotor Behavior in the Albino Rat** 106
LEWIS, D. AND LICHTE, W. H. **Analysis of a Perceptible Series of Partials in a Vocal Sound** 254
MARQUIS, D. G. AND PORTER, J. M., JR. **Differential Characteristics of Conditioned Eyelid Responses Established by Reflex and Voluntary Reinforcement** 347
MARTINSON, B. M. **A Study of Brain Potentials During Mental Blockings** 143
METZNER, C. A. **The Influence of the Affectivities Upon Learning** 135
MILISEN, R. AND VAN RIPER, C. **Differential Transfer of Training in a Rotary Activity** 640
NYGARD, J. W. **Cerebral Circulation Prevailing During Sleep and Hypnosis** 1
PEAK, H. **The Parrish Laboratories of Psychology at Randolph-Macon Woman's College** 551
PETERS, H. N. **Experimental Studies of the Judgmental Theory of Feeling: III. The Absolute Shift in Affective Value Conditoned by Learned Reactions** 73
PETERS, H. N. **Experimental Studies of the Judgmental Theory of Feeling: IV. Retention of the Effects of Learned Reactions on Affective Judgments** 111
PHILIP, B. R. **Studies in High Speed Continuous Work: I. Periodicity** 499
RANEY, E. T. **Brain Potentials and Lateral Dominance in Identical Twins** 21
RAZRAN, G. H. S. **Studies in Configural Conditioning: II. The Effect of Subjects' Attitudes and of Task-Sets Upon Configural Conditioning** 95
RAZRAN, G. H. S. **Studies in Configural Conditioning: III. The Factors of Similarity, Proximity, and Continuity in Configural Conditioning** 202
RAZRAN, G. H. S. **Discussion: Conditioning and Attitudes** 215
RAZRAN, G. H. S. **Studies in Configural Conditioning: VI. Comparative Extinction and Forgetting of Pattern and of Single-Stimulus Conditioning** 432
RAZRAN, G. H. S. **Decremental and Incremental Effects of Distracting Stimuli Upon the Salivary CRs of 24 Adult Human Subjects (Inhibition and Disinhibition?)** 647
SHARP, W. L. **The Relationship Between Speed and Efficiency of Learning on the Constant Speed Finger Maze** 86
TRAVIS, R. C. **Length of the Practice Period and Efficiency in Motor Learning** 339
WATERS, R. H. **The Law of Acquaintance** 180
WICKENS, D. D. **Discussion: A Reply to Dr. Razran's "Conditioning and Attitudes"** 233
WICKENS, D. D. **The Simultaneous Transfer of Conditioned Excitation and Conditioned Inhibition** 332
YOUTZ, R. E. P. **The Weakening of One Thorndikian Response Following the Extinction of Another** 294
